

GRAS RA0503

Mounting Adapter for 1/8" Flush-mount Microphone Set

Material: PPE GF30. (polyphenylenether modified + 30% fibre glass)

The GRAS RA0503 is a non-conductive mounting adapter for 1/8" flush-mount microphone sets.

This product is designed exclusively for use with the GRAS 47DX 1/8" CCP Flush-Mount Microphone Set.

Introduction

An adapter for each size of flush-mount microphone set is available. The adapters are made from a nonconductive plastic material that provides electrical insulation between microphone and test object. The microphone set is attached to the adapter with an O-ring. This makes installation and removal of the microphone set easy.

The adapter is mechanically strong and can be glued to an object with general types of glue.

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones to industries where acoustic measuring accuracy and repeatability is of utmost importance in R&D, QA and production. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, and consumer electronics. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect and trust.

GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands. Read more at www.GRASacoustics.com
